

What is claimed is:

- 1           1.     A method of consolidating subscriptions comprising:  
2                     receiving from one or more fulfillment houses subscription information  
3     corresponding to subscriptions; and  
4                     organizing the subscription information by consumer household.
- 1           2.     The method of claim 1 further comprising:  
2                     receiving consumer information from a consumer of a household; and  
3                     matching the consumer information with subscription information  
4     associated with the consumer's household.
3.     The method of claim 2 wherein the consumer information is a credit card  
                    number.
4.     The method of claim 2 wherein the consumer information is consumer  
                    name and address.
5.     The method of claim 2 wherein the consumer information includes a first  
                    credit card number and a second credit card number and wherein the subscription information is  
                    matched to the first credit card number.
- 1           6.     The method of claim 2 further comprising:  
2                     presenting to the consumer subscription information matching the received  
3     consumer information;  
4                     receiving from the consumer an indication of selected subscriptions; and  
5                     linking a number of the selected subscriptions to the received consumer  
6     information.

1                   7.     The method of claim 6 wherein the received consumer information  
2 includes an identifier of an account and the number of subscriptions are linked to the account  
3 identifier, the method further comprising charging the account for the linked subscriptions.

1                   8.     The method of claim 6 further comprising:  
2                   providing the consumer a number of add-on subscriptions based on the  
3 linked subscriptions.

1                   9.     The method of claim 8 wherein the number of add-on subscriptions is  
2 based on the number of linked subscriptions.

1                   10.    The method of claim 8 wherein the number of add-on subscriptions is  
2 based on an amount paid by the consumer for the linked subscriptions and half basic rates of  
3 linked subscriptions.

1                   11.    The method of claim 6 wherein all of the subscriptions corresponding to  
2 the selected subscription information are linked to the received consumer information.

1                   12.    The method of claim 10 further comprising:  
2                   for individual linked subscriptions, calculating an individual subscription  
3 add-on value by subtracting the half basic rate from the amount paid; and  
4                   calculating a total add-on value by summing the individual add-on values  
5 of the linked subscriptions,  
6                   wherein providing the add-on subscriptions is based on the total add-on  
7 value.

1                   13.    The method of claim 8 wherein the add-on subscriptions have associated  
2 half basic rates and the providing is based on the total of the half basic rates of the add-on

3 subscriptions.

1 14. The method of claim 8 further comprising billing the consumer for an add-  
2 on subscription based on the consumer failing to cancel that add-on subscription.

1 15. The method of claim 6 further comprising:  
2 transmitting renewal notices to the consumer and receiving consumer  
3 renewal responses; and  
4 providing add-on subscriptions based on consumer renewal responses.

1 16. The method of claim 1 wherein the subscription information includes  
2 subscription expiration date, the method further comprising:  
3 linking the associated subscription information to an account; and  
4 automatically billing the account for subscriptions corresponding to the  
5 linked subscription information based on the expiration date.

1 17. The method of claim 2 further comprising:  
2 receiving a consumer edit to the subscription information associated with  
3 the consumer's household; and  
4 updating the subscription information associated with the consumer's  
5 household according to the consumer edits.

1 18. The method of claim 17 wherein the consumer edit is applied to  
2 subscription information corresponding to multiple subscriptions.

1 19. The method of claim 17 wherein receiving the consumer edit includes  
2 receiving at least one of the following edits: cancellation, change of address, change of the credit  
3 card number, new purchase, and purchase of gift subscription.

1           20.    The method of claim 6 further comprising:

2                   selectively preventing linking of a subscription.

1           21.    The method of claim 20 wherein selectively preventing linking involves  
2 preventing linking of the subscription based on channel of sale of the subscription.

1           22.    The method of claim 20 wherein selectively preventing linking involves  
2 preventing linking of the subscription based on time on file of the subscription.

1           23.    The method of claim 1 wherein the subscription information is received  
2 from two or more fulfillment houses and the associating includes associating subscription  
3 information received from different fulfillment houses with the same household.

4           24.    A system for consolidating subscriptions, comprising:  
5                   a storage device to store information relating to subscriptions, the  
6 information received from one or more fulfillment houses; and  
7                   one or more processors coupled to the storage device, the processors  
8 configured organize the subscription information by household.

1           25.    The system of claim 24 wherein the processors are configured to associate  
2 information relating to subscriptions with a household of a consumer based on consumer  
3 information.

4           26.    The system of claim 25 wherein the consumer information is received  
5 from the consumer.

6           27.    The system of claim 25 wherein the consumer information is part of the  
7 information received from the fulfillment houses.

8           28.    The system of claim 25 wherein the consumer information includes an

9 identifier of an account and the processors are configured to initiate billing the consumer for  
10 subscriptions associated with the consumer's household by charging the account.

11 29. The system of claim 28 wherein the information relating to subscriptions  
12 includes subscription expiration date and the processors are configured to bill the consumer for  
13 the subscriptions based on the expiration dates.

14 30. The system of claim 24 wherein the processors are configured to  
15 determine the availability of add-on subscriptions.

16 31. A method of managing a magazine portfolio, the method comprising:  
17 receiving subscription information relating to a plurality of subscriptions  
18 associated with a consumer of a household;  
19 providing a consumer identifier; and  
20 selecting at least a portion of the plurality of the subscriptions for linking  
21 to the consumer identifier.

22 32. The method of claim 31 wherein the consumer identifier is an identifier of  
23 an account.

24 33. The method of claim 31 wherein selecting subscriptions for linking to the  
25 consumer identifier is an agreement to renew the selected subscriptions.

26 34. The method of claim 31 wherein the consumer identifier is an identifier of  
27 an account and selecting subscriptions for linking to the consumer identifier is an agreement to  
28 have the account charged for the selected subscriptions.

29 35. The method of claim 33 wherein the selected subscriptions were  
30 purchased from different sources, the method further including receiving one or more add-on

31 subscriptions based on the selected subscriptions.

32 36. The method of claim 31 further comprising:

33 providing the consumer identifier a second time;

34 receiving the subscription information relating to the plurality of

35 subscriptions associated with the consumer;

36 editing the subscription information, wherein the subscription information

37 relates to subscriptions purchased from different sources.

1 37. A method of consolidating subscription information, the method

2 comprising:

3 receiving first subscription information representing a first plurality of

4 subscriptions of a first consumer of a household;

5 receiving second subscription information representing a second plurality

6 of subscriptions of a second consumer of the household;

7 receiving consumer information from the first consumer;

8 associating the first subscription information and the second subscription

9 information together, as part of the household.

10 38. The method of claim 37 wherein the first plurality of subscriptions

11 includes subscriptions purchased from different sources.

12 39. The method of claim 37 wherein the first subscription information

13 includes information received from multiple fulfillment houses.

1 40. An article of manufacture comprising computer readable code, the

2 computer readable code including:

3 code for causing a computer system to store subscription information of a  
4 plurality of consumers; and

5 code for causing the computer system to organize stored consumer  
6 subscription information by household.

7 41. The article of manufacture of claim 40 wherein the computer readable  
8 code further includes code for linking subscriptions of a household to a payment account.

1 42. A device for organizing subscriptions, the system comprising:

2 means for storing subscription information; and

3 means for organizing the subscription information by household, the  
4 means for organizing coupled to the means for storing.

5 43. The device of claim 42 wherein the means for organizing is further for  
6 linking subscription information associated with a household to a consumer identifier.

7 44. The device of claim 43 wherein the consumer identifier is an account  
8 identifier and the means for organizing is further configured to bill the account for subscriptions  
9 associated with the household.
